Product Data

Mildly alkaline cleaner for machine cleaning of laboratory glassware and other laboratory utensils, powder.

Especially for mechanical cleaning of laboratory glassware and utensils in water laboratories, in serological institutes and in the phosphate industry, where traces of phosphate compounds would interfere with analytical determinations.

With material protection and good cleaning power for inorganic and organic contaminants

- Free of phosphate
- UN 3253 DINATRIUMTRIOXOSILICAT, Gemisch, 8, III, E

Item No.	execution	capacity	Price
18.9402.18	bucket	10 kg	CHF 153.95

* The prices are non-binding and are to be understood as selling prices in Swiss francs without value added tax (VAT), as well as all other fees, charges and taxes. The prices displayed in the eShop may differ from the PDF file due to regular updates.

** Please note that when ordering chemicals and detergents, transport and packaging costs for hazardous goods as well as legally prescribed fees are charged. These will be shown in detail on the order confirmation, which you will receive in addition to the confirmation of receipt.

*** Further information such as technical information and safety data sheets can be found online in our eShop.
