Product Data

The classical Sapphire PCR 8-tube strips are also available with individually attached caps. The angular attached domed or flat caps can be closed and opened individually minimising the risk of cross contamination. Moreover, individual closing and opening helps to avoid pipetting errors and facilitates sample processing. The 8-tube strips can be split into smaller sections hence the number of required tubes can be adjusted to the sample number. The 8-strip tubes are available with attached domed caps for standard PCR or with attached ultra clear flat cap for real-time PCR.

- Medical-grade polypropylene without interfering additives
- Uniform thin walls for homogenous temperature transfer
- Universal fit for many PCR systems
- Combines single tube features with strip tube handling features
- Packed in stacks of 12 x 8-tube strips in a resealable bag

Item No.	description	vol.	colour	Price
7.608 281	8-tube strips for qPCR with individually attached optical flat caps	0,2 ml	natural	CHF 1'992.14
7.673 283	8-tube breakable strips with individually attached domed caps	0,2 ml	natural	CHF 1'992.14

* The prices are non-binding and are to be understood as selling prices in Swiss francs without value added tax (VAT), as well as all other fees, charges and taxes. The prices displayed in the eShop may differ from the PDF file due to regular updates.

** Please note that when ordering chemicals and detergents, transport and packaging costs for hazardous goods as well as legally prescribed fees are charged. These will be shown in detail on the order confirmation, which you will receive in addition to the confirmation of receipt.
