Product in eShop

[Home](#) / [Cleanroom](#) / Detectable forceps, sterile

Product Data

- PS detectable, blue
- Individually packaged and sterilised
- For single use
- Clean room manufactured (clean room class 7)
- Complies with EU food requirements and FDA regulations
- Overall length 130 mm

These samplers are not only coloured blue but also have a special additive in the material that makes them visible to metal detectors or X rays. These products can therefore be rejected with standard systems for checking for foreign objects, even though they are made of plastic.

The disposable forceps are suitable for precise lab work and are ideal for grasping, lifting and moving small objects, for example fine tissue, small items or solid samples.

The fluted handles ensure optimum and secure handling as well as precise work.

The light plastic forceps for single use allow for fatigue-free work. The clean room-manufactured lab assistants meet the highest standards and prevent cross-contamination or impurities in the sample being examined.

The lab tweezers are suitable for chemical, pharmaceutical or cosmetic applications as well as the food industry and scientific uses.

Pointed/angled shape

The disposable forceps have fine, smooth, curved gripping tips. Different materials can be held and processed reliably with the pointed ends.

Pointed shape

The anatomical forceps have a straight tip, fluted on the inside. This makes it possible to grip sensitive materials reliably.

Broad tip shape

Item No.	execution	Price
15.5379.65	pointed/angled	CHF 110.60
15.5379.66	pointed	CHF 110.60
15.5379.67	broad tip	CHF 110.60
